

Projects

Whether it is for a small development project or you are replacing the company's entire IT system, Nordic Consult has some of the most talented consultants within their area of expertise.

Only the Best

Nordic Consult know the markets and the consultants well, as we have worked and continue to work with several of them in the field.

Each position is different so it is important to find the right consultant – on both a professional and on a personal level.

Technical Screening

Nordic Consult have developed a **unique** recruitment process where the candidates, in addition to the normal screening process, also are technically screened and challenged by our own IT experts and our pharma consultants, for example. They are screened in such a way that, we can ensure that your company is offered only the best possible consultant and not just a CV from a database.

Selected competencies/skills:

Nordic Consult can supply you with your next consultant. We know the importance of finding the **right** competence/resource the **first** time without compromising. "Quality first". Sample Consultant competencies/skills:
